

Woodgrain Collection

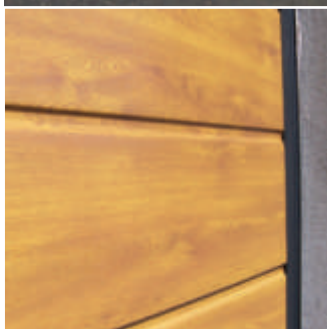

The look of timber with the durability and low maintenance of steel

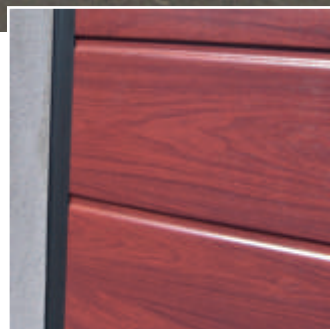

Our Golden Oak and Rosewood SwissGuard doors will improve the appearance, comfort and security of your home. These robust laminated doors are the perfect complement to timber and wood-look PVC windows... they combine the warm appearance of timber with the low-maintenance and durability of PVC-foil coated steel. Full perimeter seal and 40mm thick sections help keep the warmth in and the elements out of your garage.

SwissGuard sections are produced to exacting standards and are combined with Garage Door System's tried and tested running gear. This hardware is engineered to meet the specific requirements of your door opening.

Available in either Golden Oak or Rosewood finishes, the durable UV-resistant finish provides you with the rich appearance of timber without cracking, warping or splitting.

Golden Oak

Rosewood

Optional stainless steel porthole windows. (round or square windows available)

WeatherGuard Woodgrain

Our Georgian WeatherGuard Woodgrain doors are available in Golden Oak or Mahogany and with a choice of twenty-two window designs. The door sections are 35mm thick and constructed from .5mm steel inside and out.

Woodgrain collection doors are made-to-measure in our factory so you can be assured that we have the exact size for your home to maximize drive-through width and height.

Solid insulation achieves excellent U-values, especially important for homes with attached garages.

Our doors rise vertically and follow the line of your ceiling to maximise space inside your garage. Inside and outside you can be assured of a neat clean appearance.

Woodgrain Collection

Precision engineering, it's in the detail.

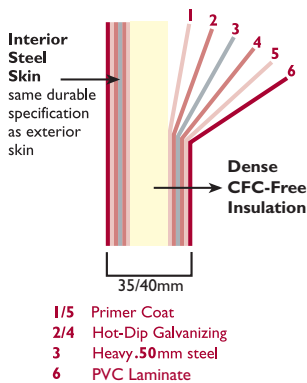

Full perimeter seals help keep rain and debris out of your garage.

Woodgrain doors can be installed as manual or automatic operation... for ultimate safety and convenience.

Mini remote control

The durable panel construction will ensure years of beauty security and warmth.

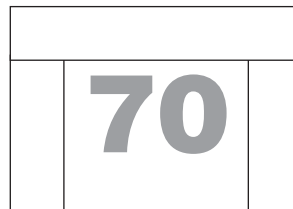

Many vehicles require extra width and height, Woodgrain doors maximise these crucial dimensions.

Our doors never swing out - you can drive right up to your door saving valuable space on your driveway.

EZ

Woodgrain doors are available with our exclusive **EZ 70** gear at no extra charge.

EZ 70 gear can be installed anywhere an old fashion one piece door is installed.
